

The rape of European women by invaders

Many of you may already know about the rape of British women by the invading forces, Rotherham of course being the most well known case. But what few know is that Rotherham is just one of an ongoing trend of rape and molestation perpetrated by these non-white scum.

A list of wikipedia entries from the most well known British rape cases follows:

What many do not know is that these cases do not solely occur in Britain, but elsewhere in the Western world as well, as shown by these two well known cases in Australia:

And even in Finland:

The true number of these events perpetrated across the Western world is unknown and certainly under reported, as both the state, the media and the judicial system work in unison to hide these atrocities, in the fear that knowledge of these events would enrage the native people of the West and damage the perception of our new “Multicultural utopia”.
